Subject: Fluid Coil Assembly for RMA 303

We now offer two styles of the fluid coil assemblies for the RMA-303; the traditional style without the fittings and ferrules, and now the *new* assembly that comes with the fittings and ferrules attached to the coiled tube. Please review below the part numbers for both assemblies and the illustration of the new coiled fluid tube assembly. Please retain this information with the service manual for future reference.

Current Assembly

Fluid coils Assembly (NO fittings and ferrules)

77531-00 for resistive materials

77517-00 for conductive materials (.170 i.d. x .250 o.d.)

78450-00 for highly conductive materials .125 i.d. x .250 o.d.)

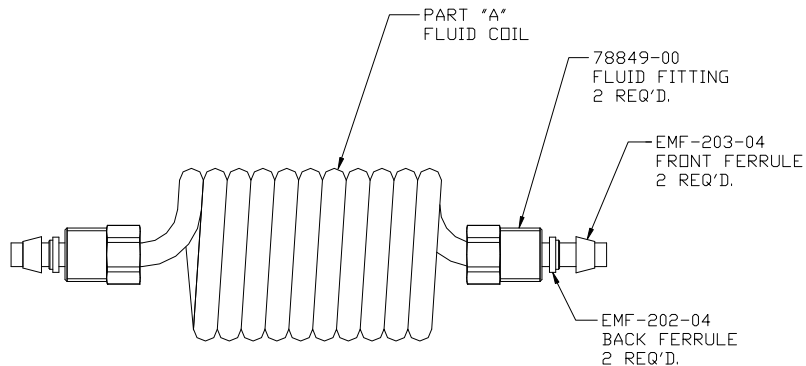

New Assembly

Fluid coils Assembly (WITH fittings and ferrules installed)

A12706-01 for resistive materials

A12706-02 for conductive materials (.170 i.d. x .250 o.d.)

A12706-03 for highly conductive material (.125 i.d. x .250 o.d.)

PART NUMBER	PART A	DESCRIPTION
A12706-01	77531-00	HIGHLY RESISTIVE MATERIALS
A12706-02	77517-00	CONDUCTIVE MATERIALS
A12706-03	78450-00	HIGHLY CONDUCTIVE MATERIALS
