Subject: Coiled Fluid Tube for Vector and Vector Solo

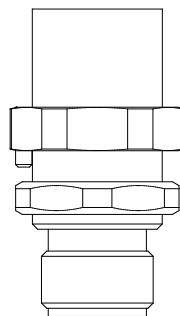

Coiled fluid tubes are now available for both the Vector corded product line, as well as the Vector Solo applicator. These coiled fluid tubes isolate highly conductive solvent-based materials from ground.

The coiled fluid tube available for the Vector Solo applicator is part number 79871-00.

79871-00 Coiled Fluid Tube for Vector Solo Applicators

For the Vector corded product line, the same coiled fluid tube can be used in conjunction with fitting kit 79899-00. The fitting and nut in this kit are not currently used on the Vector corded product line, and the kit needs to be purchased separately in order for the coiled fluid tube to be used with the Vector corded applicators. Assembly instructions are included with the 79899-00 fitting kit.
